The big jobs are well within our reach.

The HIAB XS 700 is a truly exceptional crane. The HIAB is equipped with the latest control technology and safety systems which dramatically increases our work capacity. With a 4 tonne lifting capacity at 14.17m and 17.8 tonnes at 3.3m this is one big crane. The 9 metre stabilizer ensures total stability. The Hiab is the largest of its kind in Tasmania. Think Big - the big jobs are well within our reach.
